International Table Soccer Foundation certified for training and tournament play.

Official Table of the Tornado National Tour and the Tornado National Foomball League

Comfortable, eight sided molded handle with non-slip surface provides maximum playability. Ball drop cap now used for tournament play.

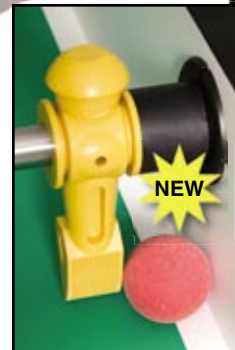

Precision ground balls provide the smoothest and most accurate play available, now made with a softer compound for better grip, and a higher visibility.

Redesigned player "foot" allows more precise ball control with higher cross hatching and square sides.

Easy-adjusting leg levelers and solid legs give stability and allow fast setup.

New, thinner inner bearing design does not allow the ball to be passed between the man and wall. Patented rubber bumper, player, and rod guarantee super-fast, durable play.

Cabinet design allows table to be shipped assembled, allowing for quick and easy set-up on location. 30 minutes from box to first game!
